

greenhouses playhouses and sheds

So many projects, which one is perfect for you? Looking to build a storage shed for garden tools or wood? How about somewhere the kids can call their own, or a place to explore your artistic side or green thumb? Whatever purpose you have in mind, we can help you choose the perfect structure for your needs. Talk to your local Home Hardware Building Centre Project Expert today.

All our standard shed packages include the necessary construction material:

- Floor, walls, roof framing and sheathing materials.
- Necessary blocking, trim and fascia.
- Roof shingles.
- Nail hangers, hinges and fasteners.
- Optional vinyl or grooved plywood sidings available.
- Some shed packages will include manufactured framing arches.
- Some shed packages will include factory built entrance doors and window units.

workshops bunkies studios

A personal space dedicated to doing what you love can be a wonderful project, one that can be very fulfilling and will inspire you to spend more time doing what you love. Think about constructing a new space dedicated to your hobbies or downtime. Home Hardware Project Packages supply a mixture of buildings to suit any usage you have in mind. Our gable style workshop is designed with high ceilings for maximum function for larger projects. The office/workshop and studio feature lots of windows for plenty of natural light.

A few considerations when planning to build your own special space:

- What size building would suit your needs, remembering if it's over 10 meters sq. you will properly need a building permit.
- List your intended contents and sketch out positions and sizes.
- Consider positioning for your building. Would your planned usage mean the building is best attached, close to or far from the house.
- Avoid building on sloping land or poorly drained soil.
- Will you need power? If so make sure you have a clear path for overhead or underground cables.
- Consider how shade from surrounding trees and plants will effect the levels of natural light at different times of the day.
- Bring your ideas into your local Home Hardware Building Centre, and let our project planners help you get the right shed, the right materials and the right advice.

Garden Studio 16' x 12' 2863-505

Backyard Office 16' x 20' 2758-101
